# of courses most students take each term

78%

of students are employed full-time while earning this degree

AND THE BEST PART WAS...

" When I researched graduate degree opportunities in sustainability, I found that the HES program fit my criteria best of all. I was looking for a mostly online degree and a program that is robust, reputable, challenging, and worth-while. After considering all of the options, it was clear that the sustainability program at Harvard Extension School provides everything I was searching for, and I have been very pleased with this choice!"

-Klara Tavakoli Goesche, Sustainability ALM degree candidate
