- ECONOMICS

and the best part was...

"...the flexibility to design our own path through the program and only take what we need. The advising was also top notch and I felt very supported in the program. Additionally, the extra opportunities for engagement, such as the clinician chats, were thought provoking and interesting to attend."

AVERAGE YEARS BETWEEN UNDERGRAD DEGREE EARNED & PMP ADMISSION

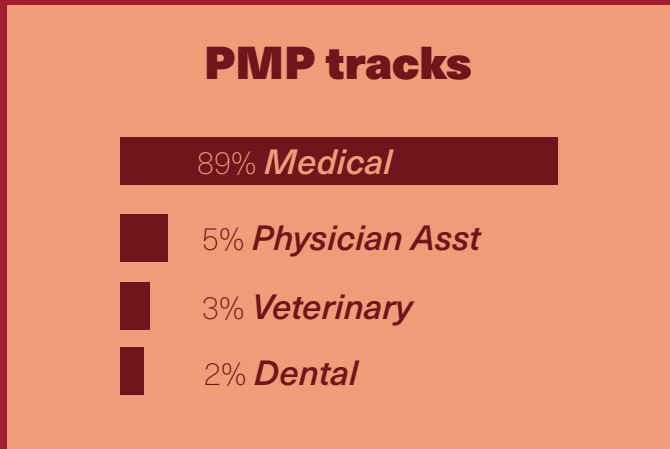

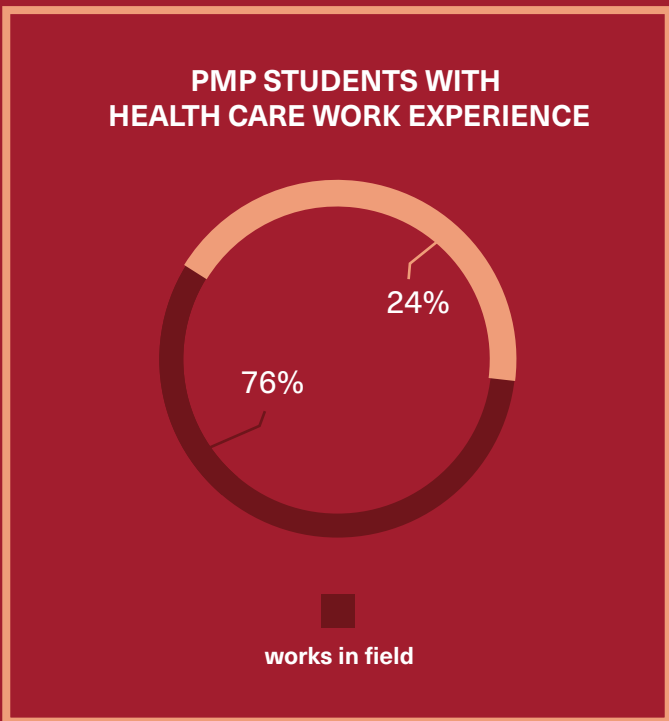

COMPLEMENTARY EXPERIENCE

For one year after completing the Premedical Program, you can register for as many Harvard Medical School online courses (HMX) as you'd like at a discounted rate.

The five, fully online, asynchronous courses cover physiology, immunology, genetics, biochemistry, and pharmacology, and prepare you for your first year in medical school.
